About ME

Electrical Engineering graduate with 3 years of experience in the power sector and energy policy, now pursuing advanced studies in renewable energy to drive sustainable energy solutions.

Work Experience

Tata Power | **Lead Associate** Jul 2023 - Jul 2026

- Collaborated closely with the team responsible for daily liaison with the Maharashtra Electricity Regulatory Commission (MERC), contributing to regulatory compliance, tariff modelling, demand-side management initiatives, and regulatory filings; recognized as Star Employee of the Month twice for overall performance and contributions.
- Analyzed consumer electricity consumption patterns and proposed demand-side management programs to reduce overall usage and improve energy efficiency.
- Supported pilot demand response projects by identifying flexible loads enabling load shifting during peak periods and enhancing grid reliability.
- Assisted in preparing Aggregate Revenue Requirement (ARR) worth **6000 Crs. Rs** and Multi-Year Tariff Petition for control period FY 2025-26 to 2029-30.
- Ensured **100**% compliance with directives showcasing strong **time management and communication skills** along with thorough reviews of Power Purchase Agreements (PPAs), Letter of Intent (LoI), and Detailed Project Reports (DPRs) ensuring alignment with prevailing regulations and directives of the State Electricity Regulatory Commission.
- Played a pivotal role in building the Financial tariff model, leveraging MS Excel skills to contribute effectively.

Custom Works | **Project/Sales Management Intern** Feb 2023 - Apr 2023

- Planned and implemented **Marketing** and **Material Sourcing** to ensure brand consistency of the firm.
- Led a team of **3 members** for Consumer Relationship Management.
- Initiated project deals and maintained ongoing communication with customers throughout the process with conversion rate of **50**% .

Team SPCE Racing | **Accumulator Head** Jan 2020 - Jan 2023

- Conducted comprehensive **research** on diverse cell types to craft an optimal battery pack for the college's student car racing team, geared towards competing in the prestigious Formula Student Bharat competition.
- Contributed in conceptualization, designing, and fabrication of custom High-Voltage battery pack, achieving a remarkable 105Wh/kg energy density and lowering weight by 16.4 % compared to previous design.
- Facilitated and coordinated a cohesive team effort, effectively **managing and collaborating** with 40 team members from various age groups and cultures to achieve success in the project.
- Ensured seamless teamwork and synergy, fostering an environment of unity and inclusivity to achieve collective success in the project.

Projects

Solar Powered Electric Vehicle Charging Station
Developed and designed a 1-kW charging circuit powered by solar panels present on the rooftop of the college which would help the stakeholders of the college to charge vehicles during the day. A closed-loop system was employed to achieve 90 % efficiency and a fail-safe charging system.

Education

2019 - 2023	Bachelor's Degree at **BVB's Sardar Patel College of Engineering**
2019	Class 12th at **Prakash College of Science**
2017	Class 10th at **Marol Education Academy's High School**

Skills

Technical	MATLAB, Python, KiCad, LTSpice .
Other Tools	Microsoft Word, Microsoft Excel, Microsoft Powerpoint.

Achievements

January 2023	3rd in Engineering Design Presentation; 2nd in Concept Goals Management Report — Forumula Bharat 2023
October 2021	Safest Formula Green Car Award; Overall Winners in EV Category — Formula Green 2021 Virtuals
December 2021	4th in Group Stage — VJTI Robotics Challenge

Volunteering and NGOs

Centre for Social action - Mumbai — Fundraising Volunteer

Through a heartfelt initiative, we connected rural women with urban communities, showcasing their handcrafted products and fostering mutual understanding. Proceeds supported rural development and women's empowerment, turning each purchase into a step toward a more inclusive and equitable society.

Tata Engage — Mentor

I volunteered as a mentor at Tata Engage, guiding a student from the Gandhi Fellowship an NGO based in Haryana, India, that equips students with soft skills for corporate careers. My role involved understanding the challenges faced by a fellow nearing program completion and preparing him for the transition by providing insights on time management, team dynamics, and strategic planning. .

Languages

Marathi	Mother Tongue
English	TOEFL 102/120
Hindi	Intermediate Level
Swedish	Beginner Fluency

Hobbies

- Engage enthusiastically in football, cycling, and marathon events, promoting physical fitness, teamwork, and endurance.
- Avid reader with a passion for exploring diverse genres and expanding knowledge on various subjects, fostering curiosity and critical thinking skills.
